The Honorable Jack Kingston Chair Subcommittee on Labor-HHS-Education Appropriations Committee United States House of Representatives Washington, DC 20515

The Honorable Tom Harkin Chair Subcommittee on Labor-HHS-Education Appropriations Committee United States Senate Washington, DC 20510 The Honorable Rosa DeLauro Ranking Member Subcommittee on Labor-HHS-Education Appropriations Committee United States House of Representatives Washington, DC 20515

The Honorable Jerry Moran Ranking Member Subcommittee on Labor-HHS-Education Appropriations Committee United States Senate Washington, DC 20510

Dear Chairman Kingston, Chairman Harkin, Rep. DeLauro, and Senator Moran:

The 56 undersigned members of the Health Professions and Nursing Education Coalition (HPNEC) write to recommend \$520 million for the Health Resources and Services Administration (HRSA)'s Title VII health professions and Title VIII nursing programs in the FY 2015 Labor-HHS-Education spending bill. HPNEC is an alliance of national organizations representing schools, programs, health professionals, and students dedicated to ensuring the health care workforce is trained to meet the needs of our diverse population.

Titles VII and VIII are the only federally-funded programs that seek to improve the supply, distribution, and diversity of the health professions workforce, with a focus on primary care and interdisciplinary training. By providing educational and training opportunities to aspiring and practicing health professionals, the programs also play a critical role in helping the workforce adapt to meet the nation's changing health care needs. The programs continue to prepare health professionals for new care delivery models and emerging health care challenges, enhance the size and diversity of the health care workforce, and improve access to primary care for children, adults, and seniors. Further, their structure allows them to focus on timely topics, such as improving the cultural competency of the workforce and incorporating oral health and behavioral and mental health into primary care.

As demand for health professionals grows in the face of impending shortages and a growing, aging population, continuing the investment in health professions workforce development will be key to ensuring access to high quality care for all.

While HPNEC recognizes the challenges you face in a limited budget environment, we urge you to ensure the next generation of health professionals is equipped to address the nation's health care complexities by providing \$520 million for Titles VII and VIII in FY 2015.

Sincerely,
